OCH
TECHNOLOGIES

Cutting edge solutions. Modern implementation.

COMPANY OVERVIEW

OCH Technologies delivers enterprise technical and management solutions to government clients. Located in Leesburg, VA, OCH is an 8(a) certified small business made up of experienced professionals dedicated to meeting our customers' goals.

DIFFERENTIATORS

OCH Technologies is the authority on emerging technologies within the government space. We provide cutting edge solutions that streamline workflows, simplify architecture designs, enhance security, and improve user experience. Whether we're leveraging Facebook's React framework for big data analysis with Apache Spark, or enabling continuous integration with enterprise tools like Travis, Docker, Kubernetes, or Pivotal, OCH is always at the forefront of IT trends and tactics.

CORE COMPETENCIES

WEB APPLICATION DEVELOPMENT

We provide full stack, modern web application development, from concept to operation. Specialties include implementing advanced employee training, building state-of-the-art frameworks, and modernizing legacy security programs.

DEVOPS & SYSTEMS ADMINISTRATION

We automate thorough testing, efficient deployment, and ongoing maintenance of both software and systems solutions.

DATA MODELING, ANALYSIS & BIG DATA

We help you identify and analyze relevant big data sets, and continually hone models to enable faster, smarter decision-making.

CLOUD COMPUTING

With cloud computing, we provide highly versatile, scalable, and cost-effective infrastructure alternatives that fit your evolving needs.

DATABASE MANAGEMENT

We support your ongoing business intelligence processes through the design, rollout, and maintenance of large-scale database services.

NETWORK INFRASTRUCTURE & CYBERSECURITY

Our experts leverage leading enterprise hardware and software to optimize network connectivity, streamline communication, and safeguard against sophisticated cyber attacks.

PROJECT AND PROGRAM MANAGEMENT

We help clients hit deadlines, achieve goals, and keep the customer top-of-mind with flexible project management. Our employee prioritization strategies maximize success by cultivating deeper investment in projects.
